

Phargalis™

A dedicated offer to the pharmaceutical industry

THE PHARGALIS OFFER

WORKING IN THE PHARMACEUTICAL INDUSTRY MEANS MEETING ITS UNIQUE QUALITY REQUIREMENTS. AIR LIQUIDE'S PHARGALIS OFFER IS DESIGNED IN THE SPIRIT OF GOOD MANUFACTURING PRACTICES. IT MEETS YOUR EXPECTATIONS, WHETHER RELATED TO THE PRODUCTION OR TO THE USE OF GASES IN CONTACT WITH YOUR DRUG PRODUCT.

Reduce your risks with PHARGALIS. No more adulterating contaminants, identification problems, or missing information. It isn't just a product line; it's peace of mind.

We understand your concerns. That's why we base our offer on the following:

- Compliance with the U.S. Pharmacopeia/National Formulary (USP/NF)
- Fabrication according to GMP
- Production by traceable lots
- Certificates of analysis
- Improved safety

Gases frequently used by the pharmaceutical industry:

- Nitrogen
- Carbon dioxide
- Oxygen
- Air
- Helium
- Specialty Gases

PHARGALIS is available in:

- Gas cylinders
- Liquid cylinders
- Bulk liquid

Air Liquide offers many other services such as:

- Maintenance of your gas systems
- Auditing of your existing gas network
- Fabrication of high-tech gas piping networks
- Training on gas usage and safety
- Installation of gas monitoring systems

Why take advantage of the PHARGALIS offer?

Because you can rest easy, benefitting from:

- Guarantees
- Safer packaging
- Qualified installations
- Access to quality information
- Simplified supplier certification
- Reduced cost of material testing
